AN INTERVIEW WITH DR SAYANDIP GHOSH

Dr Sayandip Ghosh is a renowned expert in the field of education and psychology. He has been instrumental in promoting online learning during the pandemic. His efforts have positively impacted 700 schools and 3.5 lakh students and providing 8,000 teachers with online training.

The mechanism of combatting the virus has to be reoriented and our responses to it should be the right kind of response. It's not a question of learning alone, but ensuring that all aspects are taken into account. Theovidemic is affecting our mental health and we need to address it.

There is a need for us to stay ahead of the curve in order to emerge stronger. We need to adapt to the new normal and ensure that our responses are wise and effective. The role of technology is crucial in this regard.

The learning systems need to be retooled and the teacher's role needs to be redefined. There are many ways in which we can adapt and make the most of the situation. The learning systems have to be designed in such a way that they cater to the needs of all students and ensure that they are not left behind.

Many of her students have shared positive feedback for this mode of learning. She also designs the learning systems in such a way that they are flexible and can be adapted to the needs of the students. She is connected with her students on a daily basis through various platforms and ensures that they are well-supported.

She has shared her experience of working as an interpreter at Ruia College and how it has helped her in becoming a better educator. Her experience has been instrumental in her journey as an educator and has helped her to understand the needs of her students better.

There is a need for us to identify and support the frontline volunteers with necessary safety gear and training. This initiative has benefitted over 255,000 people and has been an instrumental step in our fight against the pandemic.

Vidya's story is one of personal triumph over adversity. She has shared her experience of working as an interpreter at Ruia College and how it has helped her in becoming a better educator. Her experience has been instrumental in her journey as an educator and has helped her to understand the needs of her students better.

Society in identifying and supporting the frontline volunteers with necessary safety gear and training. This initiative has benefitted over 255,000 people and has been an instrumental step in our fight against the pandemic.

Disability is a cutting-across theme in the work that the Foundation does in the areas of education and employability. This is a story from the skill-training project in Mumbai and how it is helping the beneficiaries in their journey towards employability.

MENTAL HEALTH: AN ONEROUS ISSUE

Mental health is a significant issue that needs to be addressed. The pandemic has highlighted the need for us to pay more attention to mental health and ensure that we are well-supported.

How can we identify early signs of depression and concealed depression, to ensure that we are well-supported? There are instances when we get involved in the lives of our students and become possessive about them. This can lead to problems and we need to ensure that we are not being too possessive.

Experiencing a virtual award ceremony for the first time, the Chief Executive Officer, CHETAN KAPOOR, expressed his appreciation for the initiative. He encouraged more such initiatives to be taken up in the future.
